

EBRD UNCITRAL Public Procurement Reform Initiative

PROJECT TITLE: COVID-19 emergency response and e-Catalogues - sustainability and energy efficiency

Background: In order to support the Central purchasing body State Institution "Profesiyni zakupivli" and the Ministry of Economy of Ukraine during the unpreceded times of COVID-19, the EBRD has initiated technical assistance project aiming to make public procurement faster, more transparent, and efficient.

Aim: By force of upgrading the e-catalogues and implementing emergency public procurement procedures in the e-procurement system, in particular Prozorro, this project makes a contribution to

- promoting environmental-friendly criteria in public procurement
- improving the quality of the procurement in Ukraine
- saving resources of the Central purchasing body organization while reducing the procurement bodies' workload to enable them to focus on counteracting the spread of COVID-19

Technology: e-Catalogue Prozorro Market is a quick and significant instrument that allows procuring government entities to order quickly, conveniently and without bureaucratic burden products on the online store principle. Currently, it can be used for the purchase of products up to 200 thousand UAH. Companies in real-time have the possibility to communicate with the clients and discuss all the details of the orders.

Results:

- Within 12 months, Ukraine uses environmental-friendly awarding criteria in electronic public procurement in e-catalogue Prozorro Market;
- CPB is responsible for centralised procurement in Ukraine reducing the workload on CEB and provides highly efficient procurement, improving the quality of the procurement itself and using aggregated procurement instruments.

Location

Ukraine,
Centar purchasing body
State Institution "Profesiyni zakupivli"

Pilot

The project is piloting for a year.
From April 2021 till March 2022

Use-case

- Extended range of e-efficient products presented in the e-catalog Prozorro Market
- User-friendly system for clients
- Efficient process of transferring the purchase to CPB

Key questions

- How to incorporating Energy-Efficient Products in e-Catalogues?
- How to facilitate Emergency Public Procurement by the Central Purchasing Body?
